

Department of Pathology & Laboratory Medicine | Transfusion Medicine Service

OR Schedule

Further Information Is Available By Contacting The Medical Director of the Transfusion Medicine Service: Zbigniew M. Szczepiorkowski, M.D. or the Blood Bank Medical Director, Nancy M. Dunbar M.D.

A Surgical Blood Ordering System (SBOS) is available at DHMC. This is a list of surgeries requiring Type and Screen has been created and reviewed by the Chair of each surgical department. The list is available in SDP/SDA.

All samples received from SDA/SDP patients that will be undergoing a surgery requiring a tested sample will be tested regardless of the surgical date. Testing these samples early is designed to prevent delays in obtaining blood from suppliers and may prevent delay or cancellation of the surgery.
